# DATA IS USELESS UNLESS IT DRIVES ACTION

Are you getting MAXIMUM VALUE from Microsoft Teams? Your ANALYTICS partner needs to deliver MUCH MORE than canned reports. You need insights.

T2M Code Works

- Voice Management Pack helps you deliver the best possible audio collaboration experience.

- Teams Management Pack keeps your users organized and efficient, eliminates data clutter, and speeds access to the right information.

A full suite of powerful tools Better Together

T2M Code Works exposes data to improve your business outcomes.

BEAT BACK THE FRUSTRATION OF THE TEAMS ADMIN CENTER.

With T2M, your data collection can expand to a full year. Analyze longer periods of your activity and see real trends across meaningful intervals. T2M Code Works delivers world-class analytics – **VOICE MANAGEMENT PACK and TEAMS MANAGEMENT PACK.**

Creating Useful Data

Voice Management Pack

All Code Works reports are designed with action in mind. T2M helps "close the loop" quickly on the insights we provide. No more jumping from tool to tool to uncover root cause issues. The Voice Management Pack helps ensure your users are having the best possible collaboration experience without you being a full-time Teams administrator.

medical solutions

"A Great Partnership As Our Business Evolves"

"Things keep changing. Nothing stays as is for long. Fortunately, T2M is a great partner to work with as our business evolves and new challenges arise. From capacity planning to phone call routing, T2M consistently works with us on today's challenges and readies us for the future."

**Chadd Justen, Medical Solutions
Infrastructure Lead Systems Engineer**

Key reports for everything Teams

Conference Quality Report

All your meetings, big and small, are critical to successful collaboration. Ensure they are running smoothly and resolve issues early.

Quality Trending Report

Step back to get a panoramic view of your entire organization. Decide where your attention is needed. Assess calls by location, user, OS, time of day or day of week.

Location Quality Report

Break down the user's experience based on locations you define. Get granular with the T2M subnet mapping tool and identify chronic trouble spots.

Powerful Portal Management

The purpose-built, self-service admin tool makes it easy to visualize your data, apply compliance policies and perform meaningful day-to-day administration.

Make Teams manageable...and maximize your Microsoft investment.

T2M.WORKS.

Managing Outcomes

Teams Management Pack

The Teams Management Pack helps you practice good Teams hygiene by keeping things organized and efficient, so clutter doesn't slow down your ability to get to the right information quickly.

Analyze your external exposure with the Teams Management Pack and establish controls for sharing data. Our depth of experience and vast toolset allow you to flow between strategic and tactical views. T2M's unique solutions raise the bar to maximize your Teams investment.

DATA → KNOWLEDGE → ACTION

External Sharing Report
Which domains do you share data with most frequently? Covered by NDA? Protect information and close external leaks.

Abandoned Guest Users Report
How many people from outside have been added to your environment and no longer need access? Clean house and limit exposure.

Duplicate Teams Report
How much confusion is introduced with duplicate Teams that should be consolidated? What is the real cost of searching multiple Teams for documents?

Usage Summary Report
How are people using Teams? High collaboration modalities like meetings or just as a fancy chat tool? Drive adoption, encourage collaboration, and increase productivity with usage insights.

Complete the Teams Experience with Compliance Services
Combine T2M Compliance Services with Analytics and minimize unnecessary exposure. Take control of your O365 data with reporting and monitoring. Identify suspicious activity from flagged files, take action when users violate your policies and get notified in real-time of exposed private/corporate information transmissions. T2M helps you secure your information and ensure you're protected into the future.

Elevate your Teams experience with T2M.
